

Toše Proeski - Separate ways

Gm F
Today I saw a face I only dream of
D# Dm
I recognized a feeling that I used to know
Cm B
From another time, a space I thought I left
D
Long ago

Gm F
I stood a while, I felt my breath escape me
D# Dm
And spoke her name, then as she turned to face me
Cm B
For a second there was something in her eyes
D G7 Cm
As if to say, nothing has ever changed

F
We took our seperate ways
B
But in our hearts we never changed
G Cm
We threw it all away, could we go back once again
F B
I learnt to carry on, I learnt to face another day
G G#
Without her, without her trace
Cm B
So close we nearly touched, I almost took her hand in mine
D D#
Time can fall away, but nothing can change the man inside
D Gm
Or bring us back the love once we denied

The candle burned, but in a world of darkness
I'd seperate my life before and after her
Now I see that nothing every really changed
But it's too late

I stood a while, I felt my breath escape me
Spoke her name, then as she turned to face me
For a second there was something in her eyes
As if to say, time and tide can't wait
