

## Toše Proeski - Separate ways

Gm F  
Today I saw a face I only dream of  
D# Dm  
I recognized a feeling that I used to know  
Cm B  
From another time, a space I thought I left  
D  
Long ago

Gm F  
I stood a while, I felt my breath escape me  
D# Dm  
And spoke her name, then as she turned to face me  
Cm B  
For a second there was something in her eyes  
D G7 Cm  
As if to say, nothing has ever changed

F  
We took our seperate ways  
B  
But in our hearts we never changed  
G Cm  
We threw it all away, could we go back once again  
F B  
I learnt to carry on, I learnt to face another day  
G G#  
Without her, without her trace  
Cm B  
So close we nearly touched, I almost took her hand in mine  
D D#  
Time can fall away, but nothing can change the man inside  
D Gm  
Or bring us back the love once we denied

The candle burned, but in a world of darkness  
I'd seperate my life before and after her  
Now I see that nothing every really changed  
But it's too late

I stood a while, I felt my breath escape me  
Spoke her name, then as she turned to face me  
For a second there was something in her eyes  
As if to say, time and tide can't wait
