Eb                  Db                                  Ab                                  |

Izenada nesto nas obuzima,  
k&#39;o da nije nikada do sad.  
Razlila se toplina po grudima,  
a preko Save plovi mjesec mlad.

                  Eb                                  Db                                  Ab                                  |  
I andjeli su rasirili krila,                  |  
                  Eb                                  Db                                  Ab                                  |  
i cure su se obukle za bal,                  |  
                  Ab                                  Eb                                  |  
i moja nikad nije ljepša bila,                  |  
                  Db                                  Ab                                  |  
a na reveru tamni jorgovan.                  |

dam, tigidigidigi ...

I da li me to vara osjecaj,  
ili si me zaboravila?  
Pusti nek te nosi ali znaj,  
da je sad vec prekasno za kraj.

dam, tigidigidigi ...

I andjeli su rasirili krila,  
i cure su se obukle za bal,  
i moja nikad nije ljepša bila,  
a na reveru tamni jorgovan.

dam, tigidigidigi ...
