

Sanja Vucic - Goodbye (Shelter)

D#m B
I wish I could stop it, wish I could fight it
F# C#
But there's nothing I can do, ooh...
D#m B
I thought that we were meant for each other
F# C#
Oh, how I wish I knew you better
G# Bb G#
I played a fool so many times
Bb
Can't even count it

D#m
Every time I say goodbye
F#
You try to hold me by your side
C#
Couldn't fight my way out of your hands
Bb
Find a shelter from the pain
D#m
Every time you say your lies
F#
I hide away and close my eyes
G#
I won't let you tear my world apart
Bb
Gonna find a shelter for my heart

D#m, B, F#, Bb

I thought that it was supposed to hurt me
I thought that it was love, mmm...
I put my hands up but I won't surrender
Don't need what doesn't serve me anymore

I lick my wounds
So that I can keep on fighting

Every time I say goodbye
You try to hold me by your side
Couldn't fight my way out of your hands
Find a shelter from the pain

Every time you say your lies
I hide away and close my eyes
I won't let you tear my world apart
Gonna find a shelter for my heart

B F# D#m
(Oh... oh...)
C# B
Every time I said goodbye
F# D#m
(Oh... oh...)
C# G#,B
Baby, stay away this time
Em
Every time I say goodbye
G

D
I will fight my way out of your hands
B

Gonna find a shelter for my heart
