Bob Dylan - Blowing in the wind

[Verse]
```
G         C           D         G
How many roads must a man walk down,
            C           G
before you call him a man
G         C           D          G
How many seas must a white dove sail,
            C             D
before she sleeps in the sand
        G          C            D          G
Yes, and how many times must the cannonballs fly,
              C       G
before they're forever banned
```

[Chorus]
```
C           D       G                 C
The answer my friend is blowin' in the wind
            D             G
The answer is blowin' in the wind
```

[Harmonica Refrain]
```
| C  D  | G  C  | C  D  | G      |
```

[Verse]
```
        G        C          D        G
Yes, and how many years can a mountain exist,
           C            G
before it is washed to the sea
        G         C             D      G
Yes, and how many years can some people exist,
              C             D
before they're allowed to be free
        G         C          D          G
Yes, and how many times can a man turn his head,
                    C           G
and pretend that he just doesn't see
```

[Chorus]

1

```
C           D       G                   C
The answer my friend is blowin&#39; in the wind
            D               G
The answer is blowin&#39; in the wind
```

[Harmonica Refrain]
```
| D  G  | C      | D  G  | G      |
```

[Verse]
```
        G         C           D         G
Yes, and how many times must a man look up,
            C         G
before he can see the sky
        G         C         D       G
Yes, and how many ears must one man have,
              C             D
before he can hear people cry
          G         C             D           G
Yes, and how many deaths will it take till he knows,
              C           G
that too many people have died
```

[Chorus]
```
C           D       G                   C
The answer my friend is blowin&#39; in the wind
            D               G
The answer is blowin&#39; in the wind
```

[Harmonica Outro]
```
| C  D  | G  C  | C  D  | G      |
```
